

Speed Distance Time

>

# SDT Calculation

**Distance** = **Speed x Time**  
**Speed** = **Distance ÷ Time**  
**Time** = **Distance ÷ Speed**

**Speed**    **Knots kn**  
**Distance**    **Nautical Miles M**  
**Time**    **Hours hr or hrs**

**Speed**    5 kt  
**Distance**    20 M  
**Time**    4 hrs
